

GAME EVALUATION WAIVER

This waiver certifies that I, the undersigned, am submitting a game to SlugFest Games ("SFG") for consideration for publication.

I certify that this design constitutes my own creative work and not that of another designer. I further certify that I have the legal right to sell this game.

I understand that my submission of this design does not create any kind of a business relationship between myself and SFG other than that specified herein. I understand that this document is not a contract between myself and SFG, nor an offer by SFG for any compensation.

I understand that SFG, according to its own judgement, may accept or reject the game I am submitting, and shall not be obligated to me in any way with respect thereto, unless and until SFG shall, at its own election, enter into a properly executed written agreement with me, and then only according to the terms of that agreement.

I understand that SFG may have game designs under development that are materially similar to the design I am submitting. I understand that I have no legal claim or recourse if SFG publishes a product in the future that bears resemblance to the design I am submitting.
